

**Connect
GLOBAL/ESENSA/SERENITY
to Swegon INSIDE**

Which units are **INSIDE Ready**?

GLOBAL/ESENSA/SERENITY

With TAC7 controller

- Must have satellite board “SAT INSIDE Ready”

Retrofit functionality

- All TAC7 controlled AHUs having optional satellite board “SAT WIFI-ETHERNET”, at least v1.0.0

How to connect
GLOBAL/ESENSA/SERENITY units

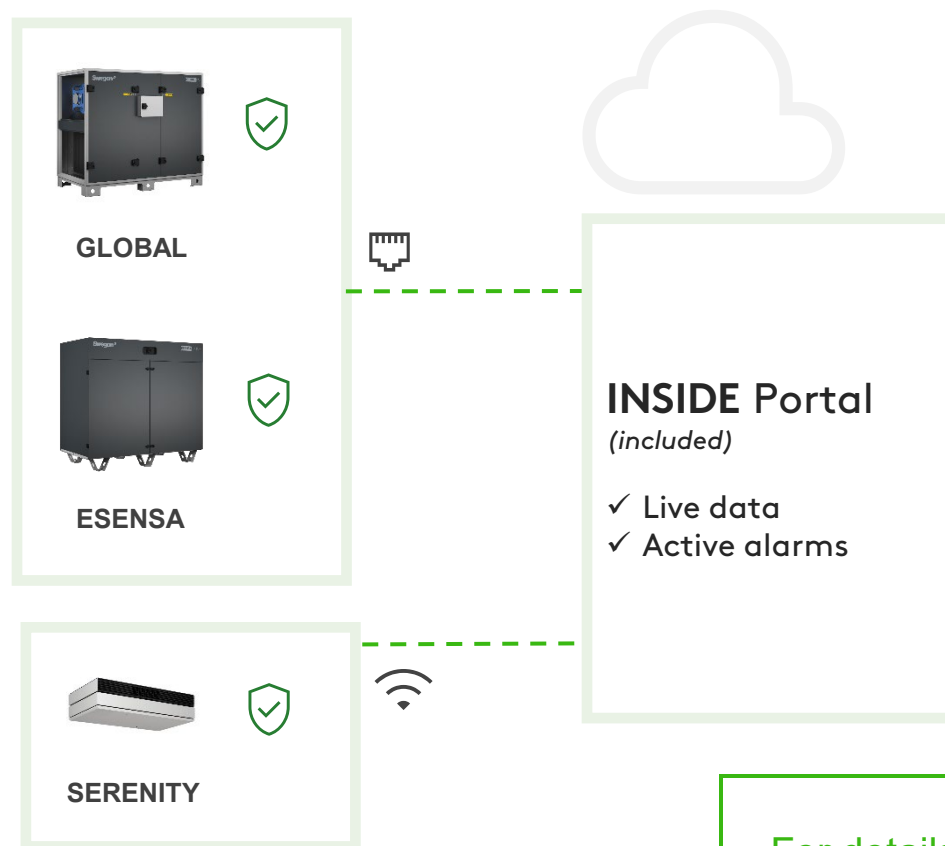

Connecting GLOBAL, ESENSA or SERENITY

Ethernet connection

Connect one end of the network cable to the facility's existing network and the other to the AHU (SAT INSIDE ready).

Wi-Fi connection

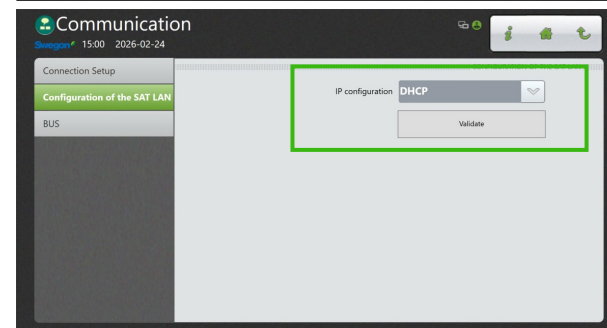

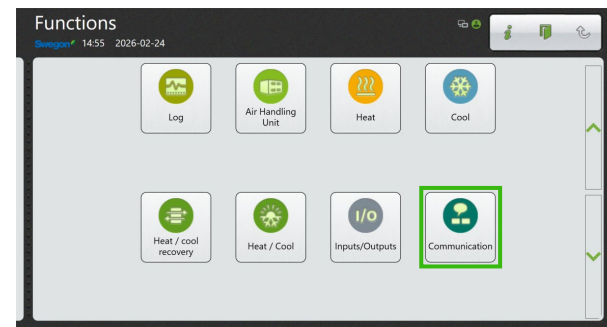

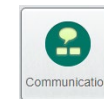

Connect the SAT INSIDE ready to the Wi-Fi network. Easiest is to activate WPS on the local router and press the WPS button on the SAT.

For details, description manual:
TAC7 + MODBUS TCP/IP

Connection settings in TACtouch

- Using Wi-Fi: no additional settings necessary
- Using Ethernet:
 - Find “Communication/Configuration of the SAT LAN”
 - For IP configuration, if the local network has the feature for dynamic IP configuration, which is generally the case, select DHCP
 - Otherwise, select Manual and make sure the following are filled in correctly: IP address, Net mask, Default gateway, Primary DNS
 - Press ”Validate” after the configuration

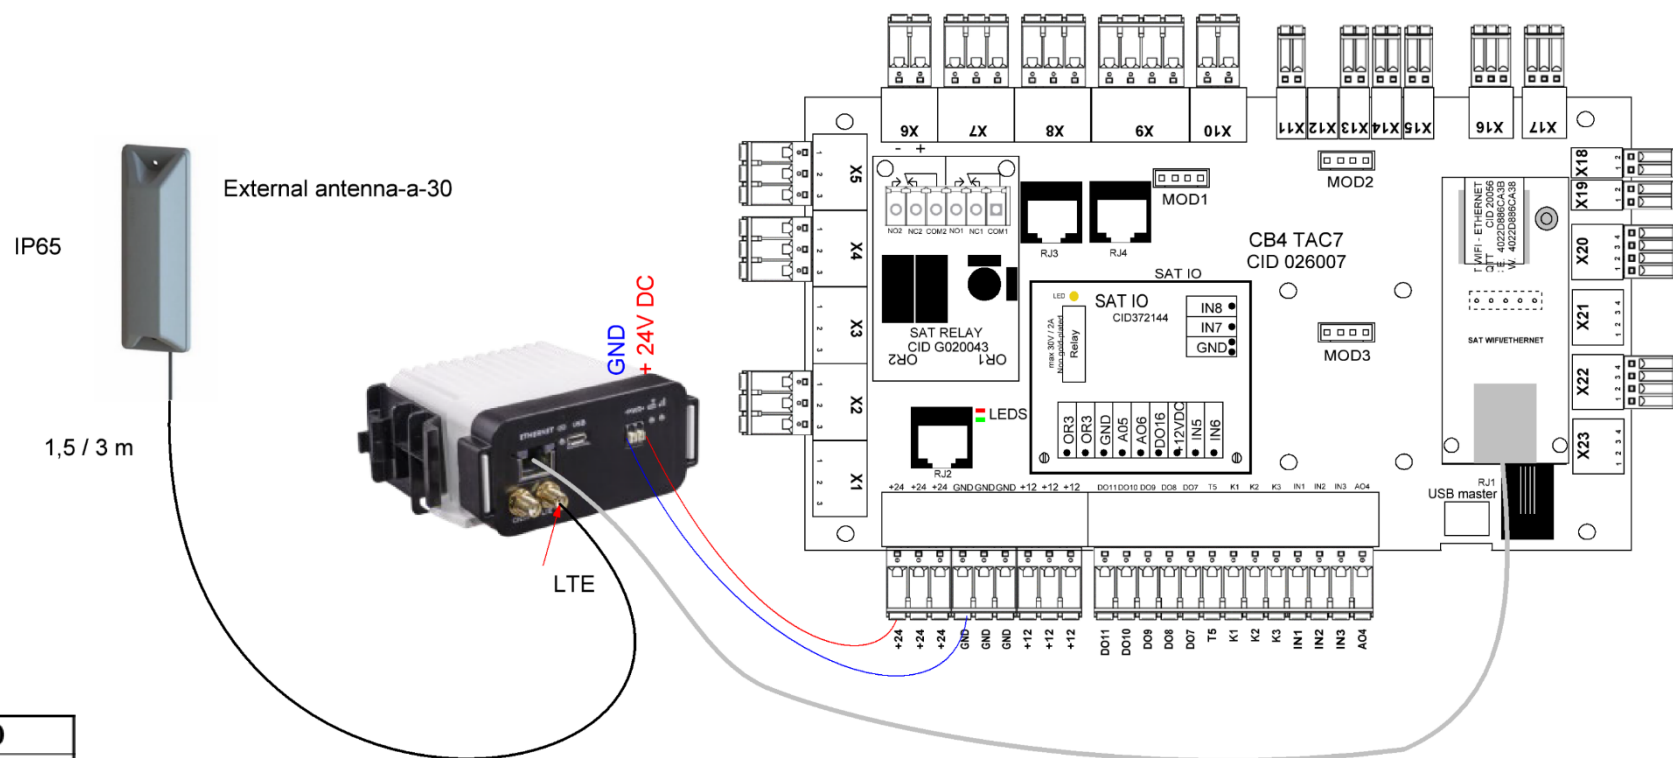

INSIDE Connect – a Swegon router

- Using the Swegon router is an option if the local network cannot be accessed or if there is no local connectivity to the internet. Follow these additional steps:
- After placing the antenna and ensuring a reliable 4G signal of the router, connect it to the SAT using a standard Ethernet cable (RJ45). Be aware, the router must be supplied with +24V DC according to the diagram.
- Configure the IP settings according to the table. Enter Function/Communication/Configuration of SAT LAN

DHCP	Off
IP Address	169.254.235.1
Netmask	255.255.255.248
Default gateway	169.254.235.6
Primary DNS	8.8.8.8

INSIDE Connect – a Swegon router

Wiring

Label	CID
INSIDE Connect, fitted in electrical cabinet	883819
INSIDE Connect, delivered loose (no PSU)	883820
INSIDE External antenna-a-15	883821
INSIDE External antenna-a-30	883822

Log into INSIDE Portal

<https://inside.swegon.com>

The screenshot shows the Swegon INSIDE login page. On the left, there is a decorative graphic of overlapping semi-circles in various colors (orange, yellow, green, blue, purple) and the text "Feel good inside". On the right, the login form is titled "Welcome to Swegon INSIDE". It includes a brief instruction: "You can login using your email and password if you already have an account or login with your existing Google or LinkedIn account. Sign up as a new user if you don't have an account." Below this are input fields for "Email" and "Password". There are checkboxes for "Remember Login" and "Forgot your password?". A green "Log in" button is positioned below the password field. Below the button is a horizontal line with "OR" in the center. Underneath is a button labeled "Login as internal provider" with a small green leaf icon. At the bottom, there is a section titled "Don't have an account?" with a "Sign up here" link.

Go to building page

The screenshot shows a web application interface for managing buildings. The breadcrumb navigation at the top reads "Home > Organisations > Company Name". A "GO BACK" button is on the left, and an "EDIT ORGANISATION" button is on the right. The main heading is "Company Name".

The "Buildings" section features a search bar with the placeholder text "Search for building name". Below the search bar is a table with the following data:

Name	City	Country	Number of products	Role
Head Office	Stockholm	Sweden	0	Organisation Admin

At the bottom right of the table, it says "Rows per page: 100" and "1-1 of 1". Below the table are sections for "Organisation administrators" and "App users", both with expandable arrows. A sidebar on the left contains several icons, and a "PA" button is visible at the bottom left.

Claim product

The screenshot displays the Swegon web interface for a building named "Head Office". The breadcrumb navigation at the top reads "Home > Buildings > Head Office". A "GO BACK" link is visible. On the left, a sidebar contains navigation icons for home, users, network, buildings, notifications, and a "PA" button at the bottom. The main content area is divided into two sections:

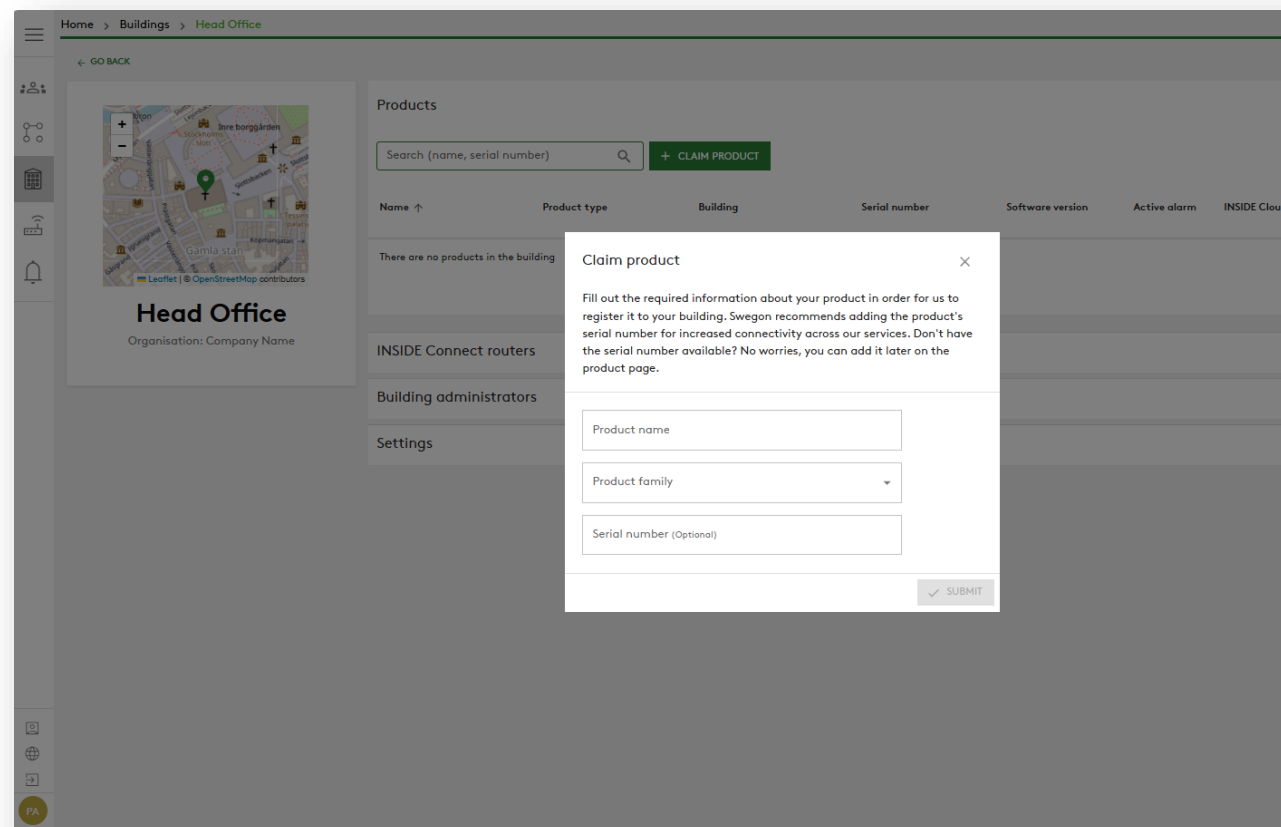

- Map Section:** A map of the "Head Office" location with a green pin. Below the map, the text reads "Head Office" and "Organisation: Company Name".
- Products Section:** A table titled "Products" with a search bar and a "+ CLAIM PRODUCT" button highlighted with a green box. The table has columns for Name, Product type, Building, Serial number, Software version, Active alarm, INSIDE Cloud, and INSIDE Connect. Below the table, it states "There are no products in the building".

At the bottom right of the products section, there is a pagination control: "Rows per page: 100" and "0-0 of 0". Below the products table are three expandable menu items: "INSIDE Connect routers", "Building administrators", and "Settings".

Product name and family

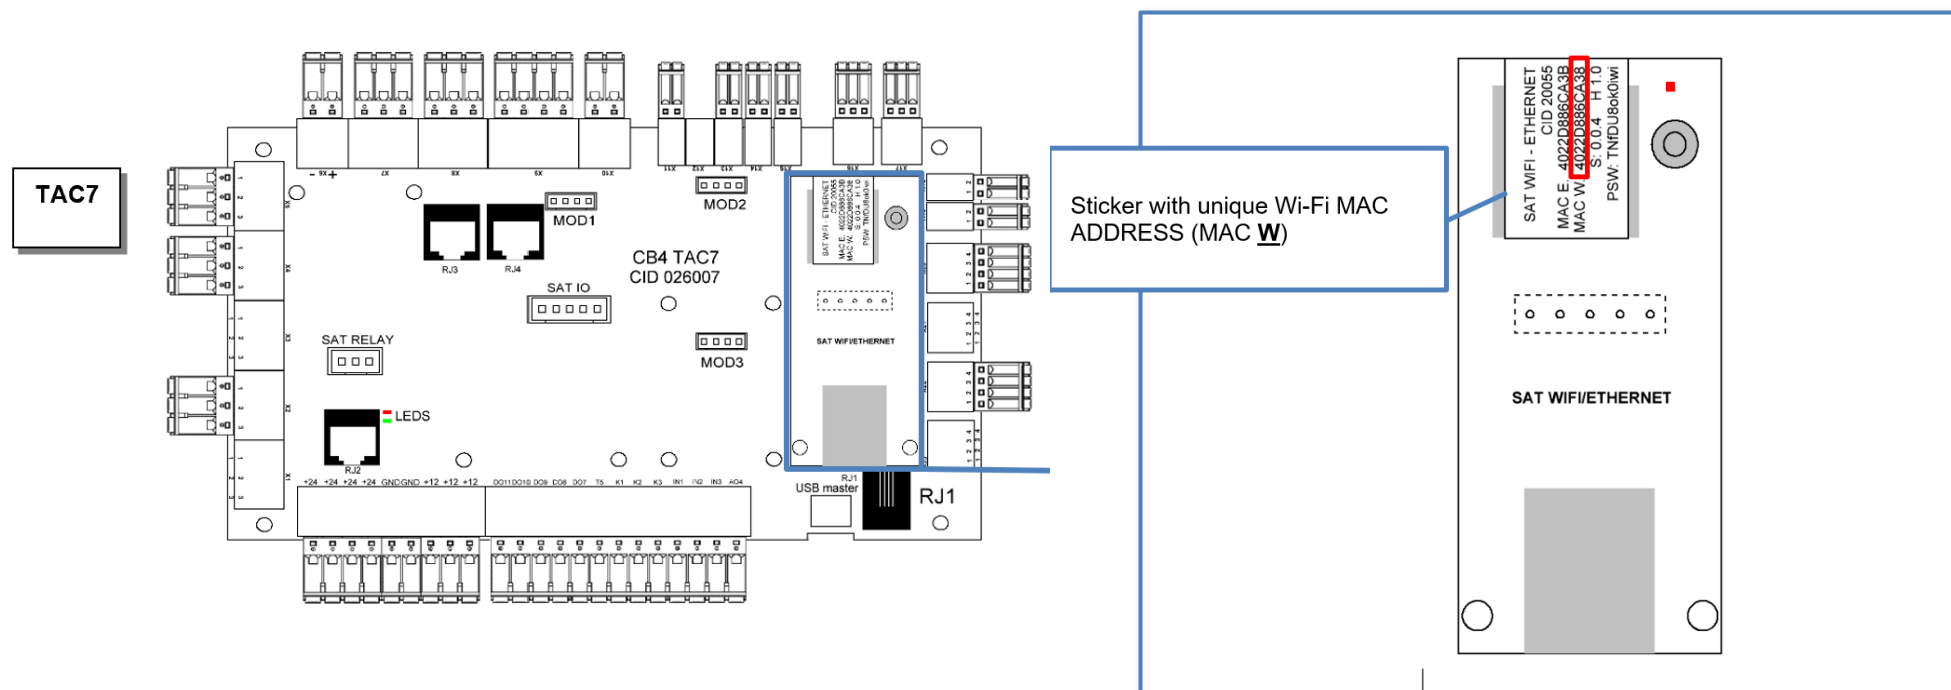

Name the product, select product family and insert the unit's serial number.

The serial number should contain 8 digits, if only 7 is shown on the product, add a "0" as first digit.

Already connected?

If the product is already connected, the only thing needed is the MAC-address of the product.

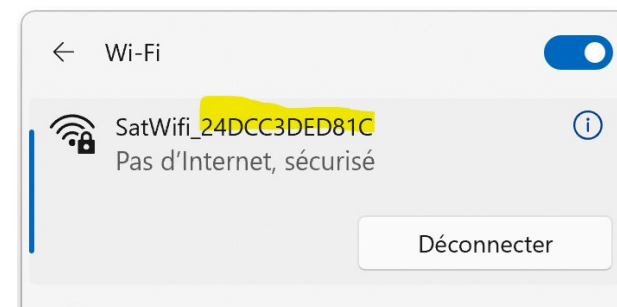

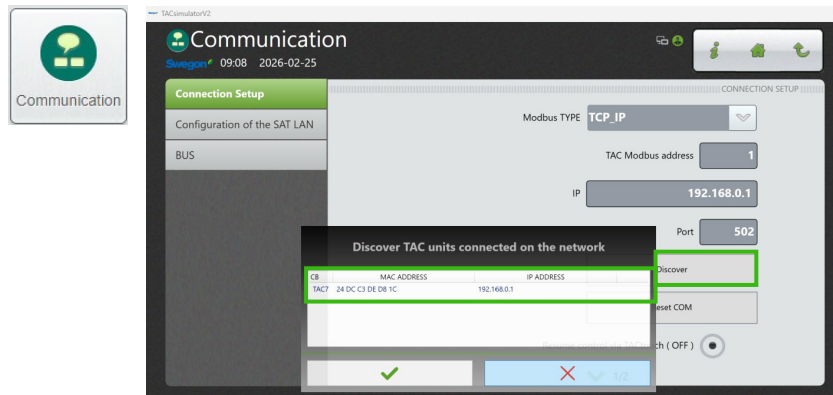

Finding the MAC-address

Software indication

The required 'W' MAC ADDRESS can be retrieved with the discover function, in [TACsimulatorV2](#): Communication → Connection Setup. It must be connected to the same Wi-Fi network as the SAT, without Ethernet cable.

The required 'W' MAC ADDRESS is also available in the default SSID of the SAT Wi-Fi Access Point, prior to configuring the Wi-Fi or connecting the Ethernet cable.

Fault detection

If product is not connected (red cloud symbol) make sure:

- Swegon INSIDE is activated on the product
- The INSIDE Ready certificate is valid
- The product's serial number is correct in INSIDE Portal
- The [firewall settings](#) and IP-addresses are correct

The screenshot displays the Swegon INSIDE Portal interface. On the left, there is a sidebar with navigation icons and a map view of the 'Head Office' location. The main content area shows a 'Products' table with the following data:

Name	Product type	Building	Serial number	Software version	Active alarm	INSIDE Cloud	INSIDE Connect
GOLD1	GOLD ver. FRX/HC	Head Office					CONNECT 30 MIN

Below the table, there are several expandable sections: 'INSIDE Connect routers', 'Building administrators', 'Active alarms', and 'Settings'. The 'INSIDE Cloud' column header and the red cloud icon in the first row are highlighted with a green box.

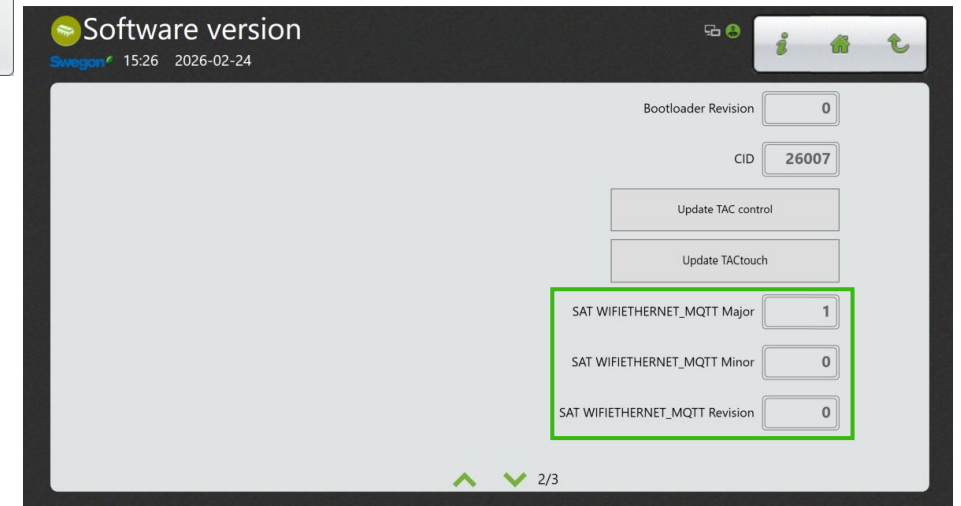

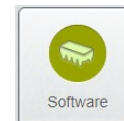

Product lacks a valid certificate

Retrofit

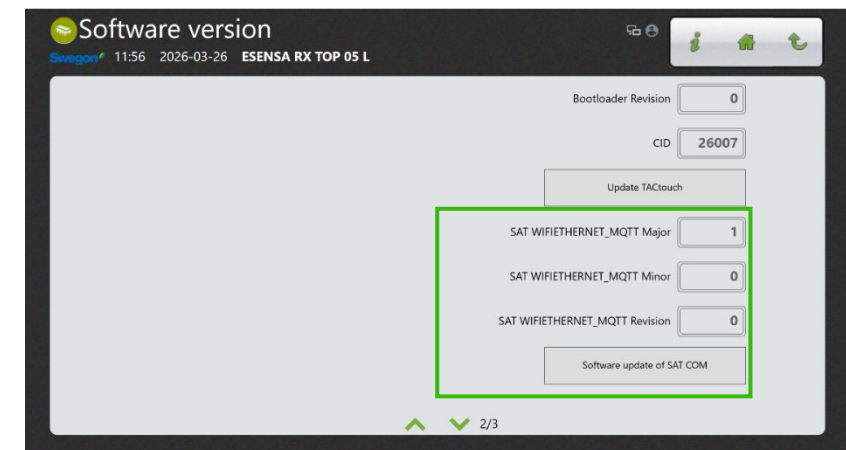

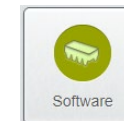

Retrofit – check software version

- TAC7 software version must be at least 1.0.11.3.
 - Digits from left to right represent: major version, minor version, revision number and build number.
- If an older software version, proceed to upgrade. Note that TACtouch should use latest version of TACsimulatorV2, includes latest version for control and HMI.
- Link for TACsimulatorV2
 - <https://www.swegon.com/globalassets/digital/13657-en-installtacsimulatortac7.zip>
- The upgrade procedure of TAC7 also available on Swegon website.

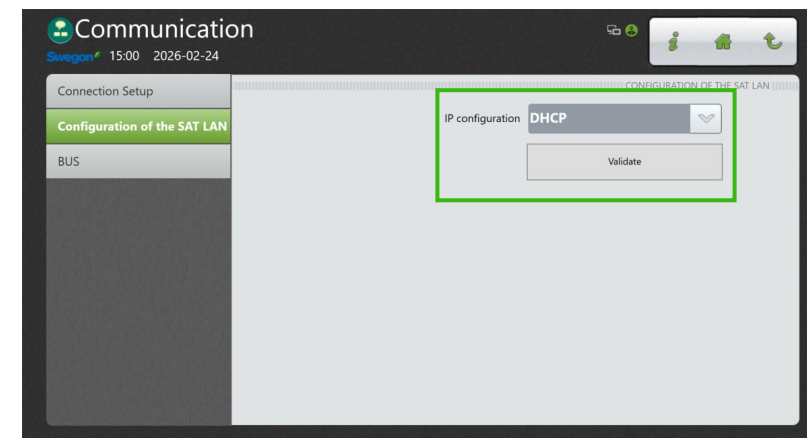

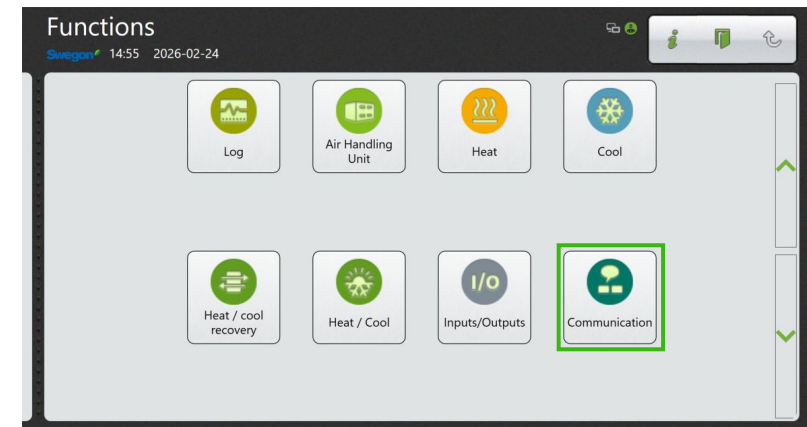

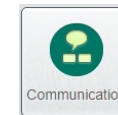

Retrofit – check software version

- SAT INSIDE Ready or SAT WIFI/ETHERNET software version must be at least 1.0.0.
 - The 3 digits represent: major version, minor version and revision number.
- In case of older SAT software version, setup connection as follows and press “Software update of SAT COM”.
- The minimum version to be upgraded is v 0.0.18.

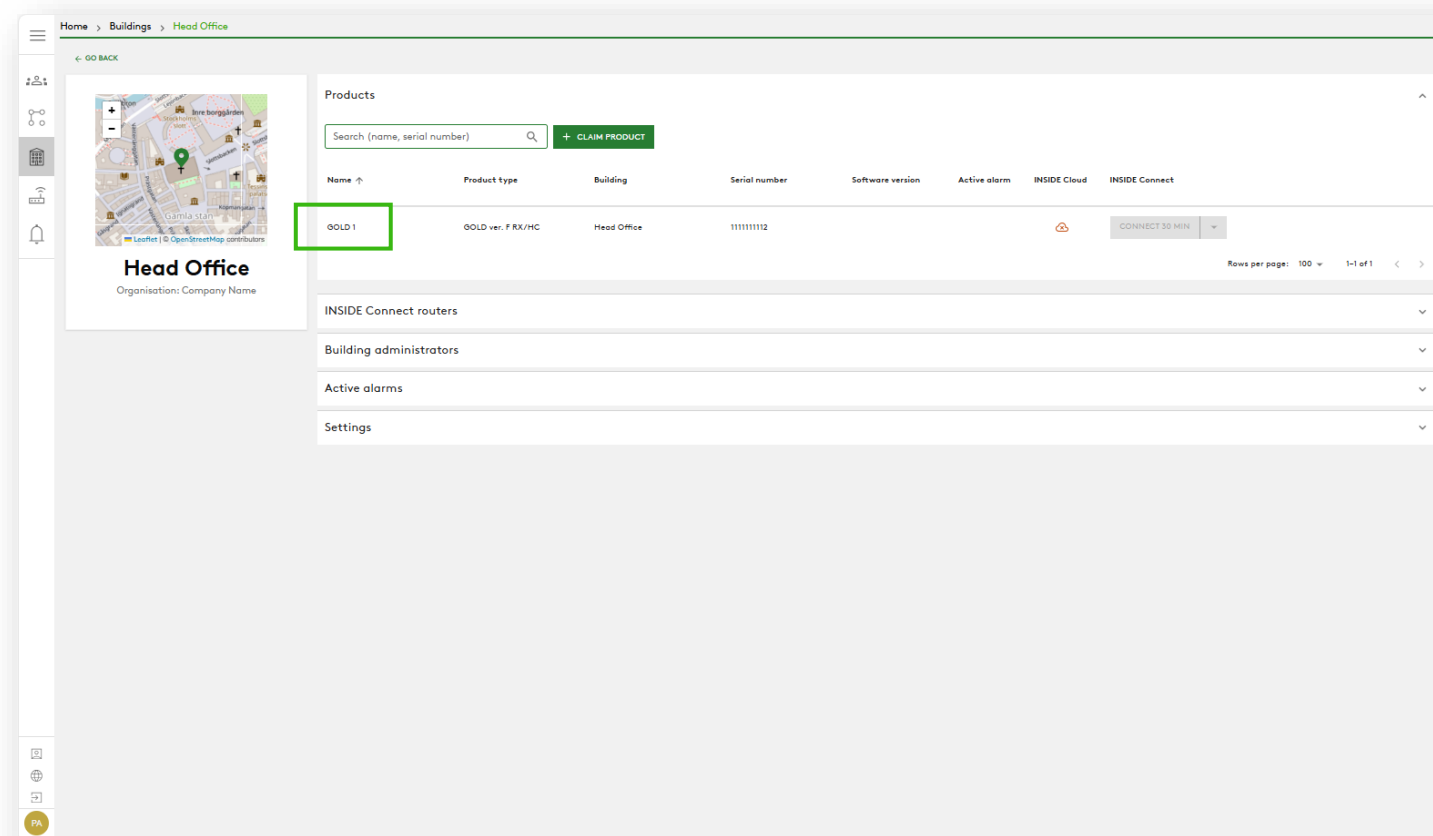

Retrofit - Connection settings in TACTouch

- Wi-Fi: no additional settings
- Ethernet: Enter “Communication/ Configuration of the SAT LAN”
 - For IP configuration, if the local network has the feature for dynamic IP configuration, which is generally the case, select DHCP
 - Otherwise, select Manual and make sure the following are filled in correctly: IP address, Net mask, Default gateway, Primary DNS
 - Press “Validate” after the configuration

Make product INSIDE Ready

- Click on the product

The screenshot displays the Swegon web interface for a building named 'Head Office'. The interface includes a navigation menu on the left, a breadcrumb trail at the top, and a main content area. The main content area features a map of the building location, a search bar for products, and a table of product details. A green box highlights the 'GOLD 1' product in the table. Below the table, there are several expandable sections for 'INSIDE Connect routers', 'Building administrators', 'Active alarms', and 'Settings'.

Make product INSIDE Ready

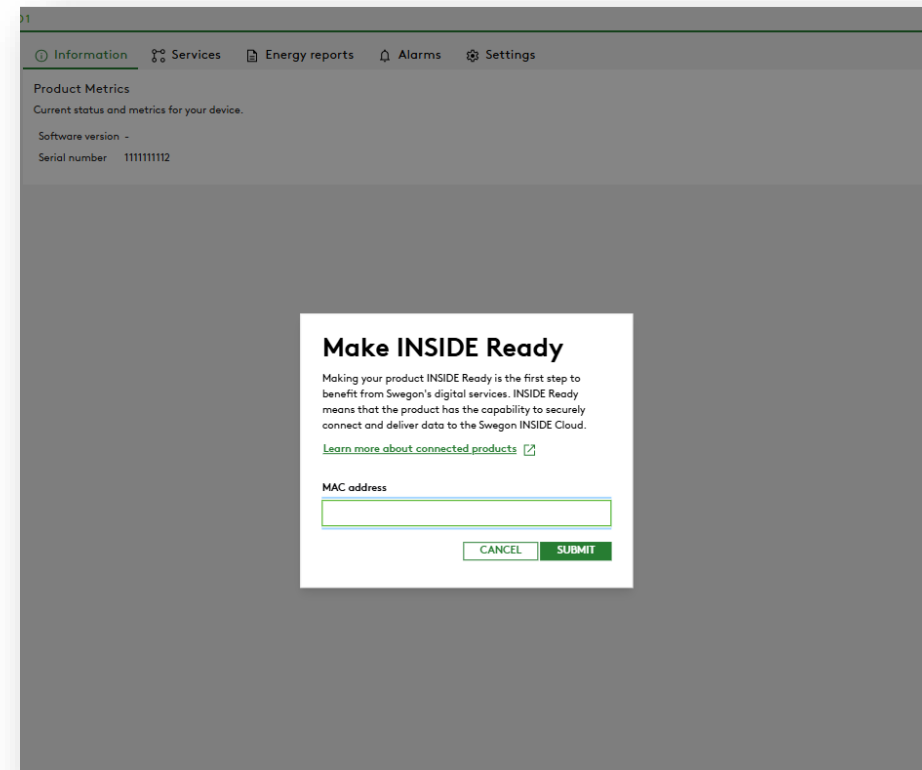

- Click “Make INSIDE Ready”

The screenshot shows a web interface for managing a Swegon product. The breadcrumb navigation at the top reads: Home > Buildings > Head Office > Product: GOLD 1. Below this is a navigation bar with a 'GO BACK' link and tabs for Information, Services, Energy reports, Alarms, and Settings. The main content area features a product image of a dark grey AHU unit. Below the image, the unit is identified as 'AHU 1' with a status of 'INSIDE Cloud' and a serial number of 'SN: 111111112'. A prominent green button labeled 'MAKE INSIDE READY' is highlighted with a green border. Below this, there is a section for 'Connected services' showing 'INSIDE Connect' with a 'CONNECT 30 MIN' button. At the bottom, a link says 'Learn more about INSIDE Connect here' with an external link icon.

Make product INSIDE Ready

- Enter the product's MAC address and submit.

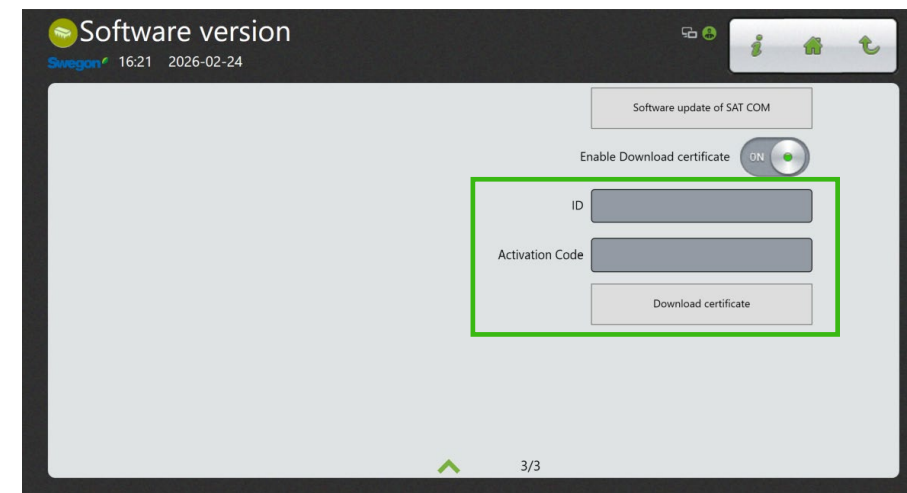

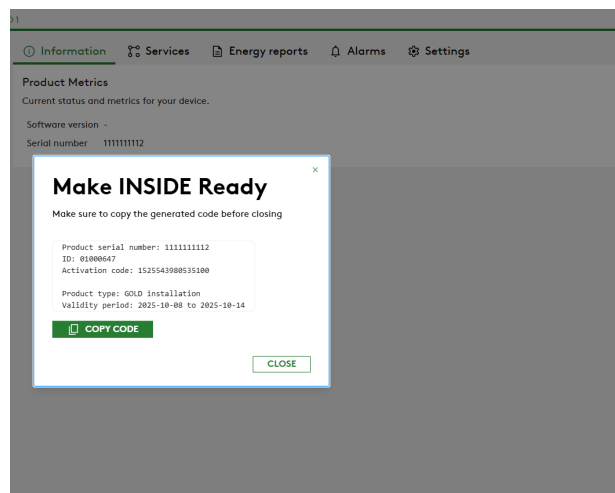

The screenshot shows a web application interface with a navigation bar at the top containing 'Information', 'Services', 'Energy reports', 'Alarms', and 'Settings'. Below the navigation bar, there is a 'Product Metrics' section with the text 'Current status and metrics for your device.' and two rows of data: 'Software version -' and 'Serial number 111111112'. A modal dialog box is centered on the screen with the title 'Make INSIDE Ready'. The dialog contains the following text: 'Making your product INSIDE Ready is the first step to benefit from Swegon's digital services. INSIDE Ready means that the product has the capability to securely connect and deliver data to the Swegon INSIDE Cloud.' Below this text is a link: '[Learn more about connected products](#)'. A text input field labeled 'MAC address' is positioned below the link. At the bottom of the dialog are two buttons: 'CANCEL' and 'SUBMIT'.

Make product INSIDE Ready

Copy ID and Activation code and enter in TACsimulatorV2, found in Functions → Software version click “Download Certificate”.

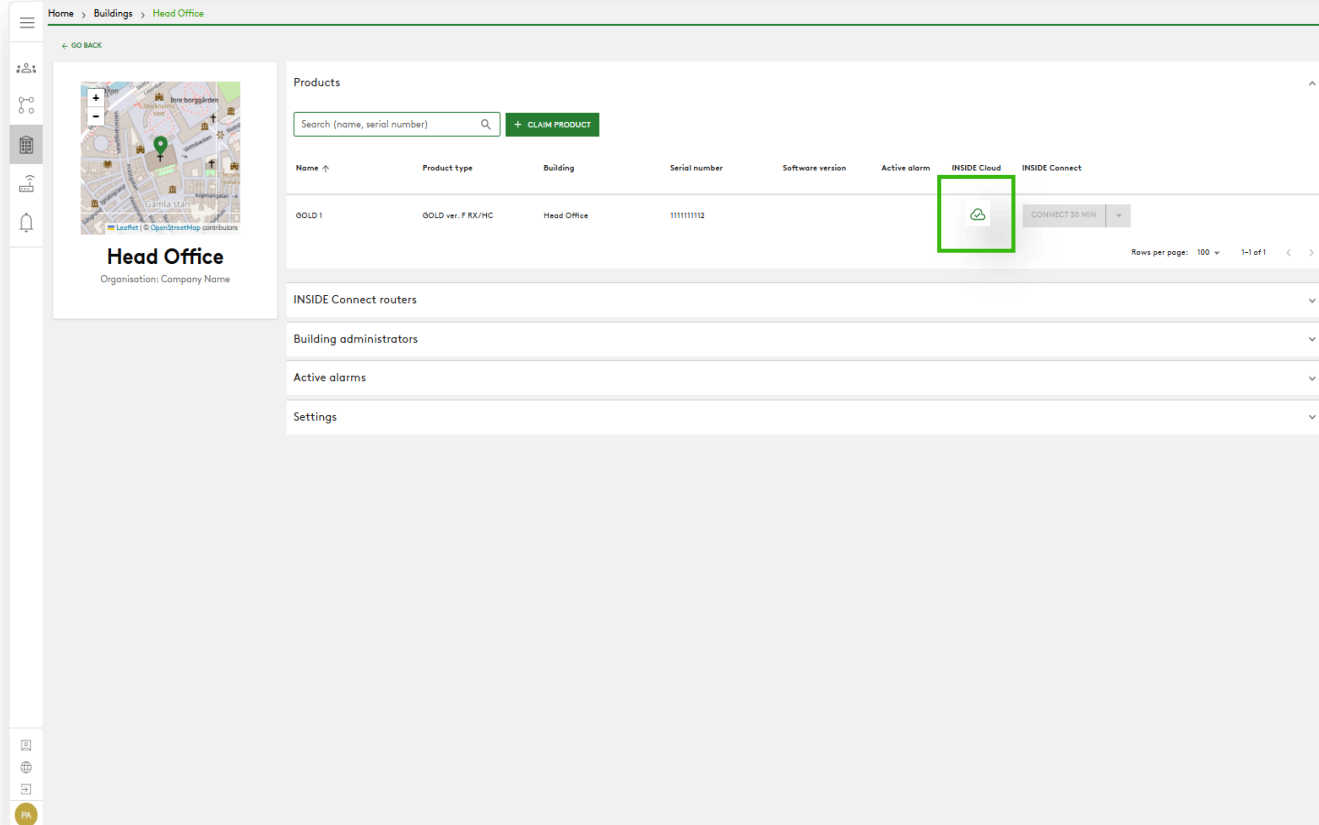

→ Product successfully connected!

N.B.: TACsimulatorV2 must be connected to the same network of the SAT and the SAT, in turn, must be connected to a network having internet connectivity

Make product INSIDE Ready

Connectivity and data sharing is indicated with a green cloud

The screenshot displays the Swegon management interface for a building named "Head Office". The interface includes a sidebar with navigation icons, a breadcrumb trail (Home > Buildings > Head Office), and a "GO BACK" button. A map of the building location is shown on the left. The main content area features a "Products" section with a search bar and a "+ CLAIM PRODUCT" button. Below this is a table with the following columns: Name, Product type, Building, Serial number, Software version, Active alarm, INSIDE Cloud, and INSIDE Connect. A single product is listed with the name "OOLD 1", product type "OOLD ver. F.RX/HC", building "Head Office", and serial number "111111112". The "INSIDE Cloud" column for this product contains a green cloud icon, which is highlighted by a green square. The "INSIDE Connect" column contains a "CONNECT 30 MIN" button. Below the table are several expandable sections: "INSIDE Connect routers", "Building administrators", "Active alarms", and "Settings". The bottom right corner shows "Rows per page: 100" and "1-1 of 1".

Name	Product type	Building	Serial number	Software version	Active alarm	INSIDE Cloud	INSIDE Connect
OOLD 1	OOLD ver. F.RX/HC	Head Office	111111112				CONNECT 30 MIN
