

Installation of the Smoke Extraction Adapter, TBXZ-1-93 GOLD/SILVER C PX

1. General

The smoke extraction adapter is designed for use with GOLD/SILVER C PX, size 004-080.

The smoke extraction adapter is used when you want to extract air to bypass the heat exchanger and filter, e.g. as a component in a system for smoke extraction. See the example.

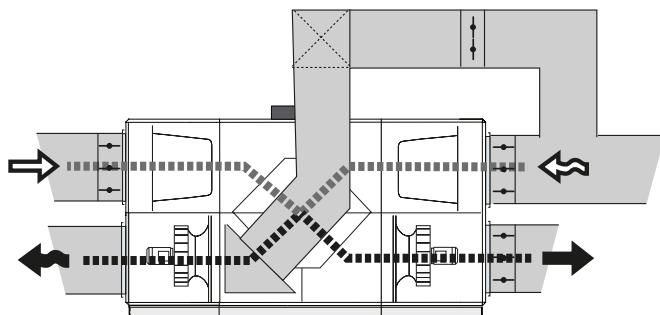

Size, adapter	Part number
005	TBXZ-1-93-05
008	TBXZ-1-93-08
012	TBXZ-1-93-12
020	TBXZ-1-93-12
030	TBXZ-1-93-30
040	TBXZ-1-93-40
040	TBXZ-1-93-40
060	TBXZ-1-93-60
080	TBXZ-1-93-80

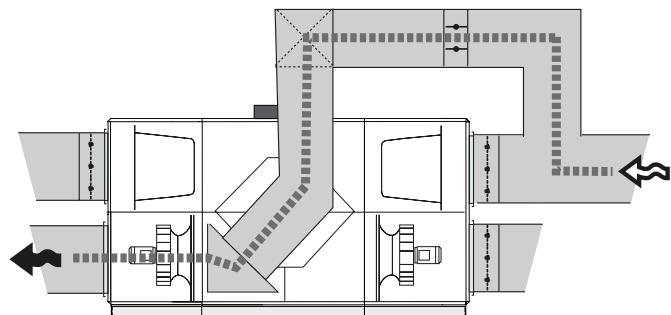

*Smoke extraction adapter.
Intake at the rear of the air handling unit.*

Example

Normal operation.

The extract air is routed to bypass the heat exchanger and filter

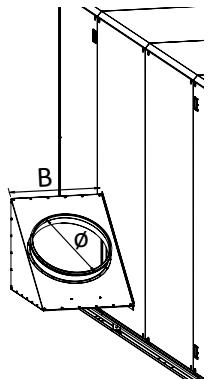

2. Installation

1. The adapter is mounted using self-tapping screws, in pre-drilled holes, above the intake at the rear of the air handling unit.
2. The duct is routed from the adapter to the extract air duct, see the example. The duct is fastened in the adapter using self-tapping screws.

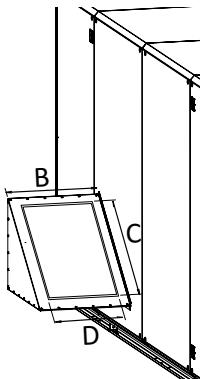

NOTE! The adapter must not bear the weight of the duct.

3. Dimensions

Sizes 004-040+

Sizes 050+ - 080

For GOLD	B	Ø	C	D
004/005	320	250	-	-
007/008	385	315	-	-
011/012	477	400	-	-
014/020	477	400	-	-
025/030	577	500	-	-
035/040/040+	700	630	-	-
050+/060+	500	-	1000	400
070/080	500	-	1200	400

3. Data

Calculation of flow and velocity smoke outlet, at 200 Pa duct pressure

AHU	Motor	Max. flow (m³/s)	Velocity (m/s)	Pressure drop (Pa)
