# Installation Instructions, TBDA/TBDB/TCDA/TCDAS Sound Attenuator GOLD/SILVER/COMPACT

## *1. General*

The TBDA/TBDB/TCDA/TCDAS is an absorption air attenuator, designed for installation in the ductwork of ventilation systems that include a GOLD, SILVER or COMPACT air handling unit.

## *2. Maintenance*

A check to determine whether cleaning is necessary should be carried out at least twice a year. A dry cleaning method only should be employed. Brush off the surfaces with a fine-bristled brush or vacuum clean them.

Cover panel on the inspection side for sound attenuators in casing (TCDA/TCDAS) is easy to dismantle for inspection and cleaning.

## *3. Installation*

For the installation of sound attenuators in duct systems, see the individual instructions entitled: Installation Instructions for Duct Accessories.
