

Installation Instructions, TBDA/TBDB/TCDA/TCDas Sound Attenuator GOLD/SILVER C/COMPACT

1. General

The TBDA/TBDB/TCDA/TCDas is an absorption air attenuator, designed for installation in the ductwork of ventilation systems that include a GOLD, SILVER C or COMPACT air handling unit.

2. Maintenance

A check to determine whether cleaning is necessary should be carried out at least twice a year. A dry cleaning method only should be employed. Brush off the surfaces with a fine-bristled brush or vacuum clean them.

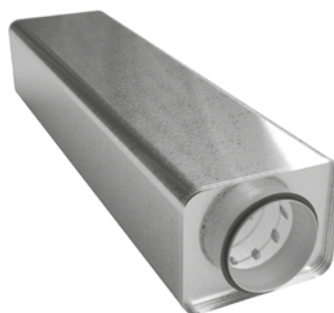

Cover panel on the inspection side for sound attenuators in casing (TCDA/TCDas) is easy to dismantle for inspection and cleaning.

3. Installation

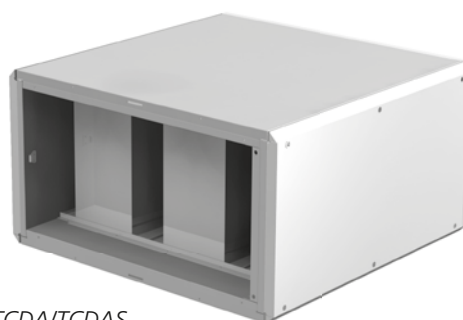

For the installation of sound attenuators in duct systems, see the individual instructions entitled: Installation Instructions for Duct Accessories.
