

CG-IV

Condensation sensor for Control equipment CONDUCTOR and URC1

QUICK FACTS

- Designation: CG-IV
- Function: Reacts at condensation on coil fins
- Total length 1550 mm.
- Sensor element: PCB with goldplated conduith paths
- Dimensions: 53x20x1,5 mm.
- Cable: 2 x 0.25 mm² length: 1500 mm.
Brown and white with crimp end ferrules
- Attachment: Mounted on aluminum plate and secured with cable ties.
Relieve the cable with cable ties.
- Location:
The sensor shall be placed on the coil fins close to the cooling water supply.
- The package includes:
1 condensation sensor
1 aluminium plate
4 cable ties
